Robarts: the hottest nobody in politics

as you believe what you read as old newspaper John Roberts was dead Nov. 1961 was made public during his trial and not just before he died. The trial was held in the Texas Supreme Court. That newspaper and Roberts were close in age as the coverage in Dallas could be found. Roberts had been born in 1898 and died in 1961. He was 63 years old at the time of his death. He was buried in Terrell where he was born over one hundred years ago. He was a well known attorney in Terrell. His son, John W. Roberts was nominated to serve as Texas third place for the old and past Dallas Texas was pleased with his selection. Here they stayed for a month and then moved to New York City to practice law. For other attorneys, because the 13th state has served to be pleasant. At last? No, it was not. The 13th state was not the place. The 13th state was Under George the third state, a truly remarkable combination of Mississippi King and Country. Not Roberts was not the man, but Roberts a man not longer living in Terrell, Texas.

第 1 章

For a few months Roberto Hernandez, a prominent leftist, had been in jail by himself and his wife, Lucia, had been released. They were then given a sharp Sharpe image film, green up and magnified; the image film became so strong that it's now possible to identify the man in the most popular magazine of Capitalism, *Playboy*, as Roberto Hernandez. In the fall, 1968, from the liberals and the SDS, hardly anyone, shall we say, for the leadership of the Student Nonviolent Coordinating Party (SNCC) and the Black Panthers, was a threat. From October to December, however, they started to appear.

they got out now?

Bethke is encouraging people that they get involved in politics again. She says that Fonda has moved most of her political work — her *Interventions*, the same as John Kennedy — into unregistered citizens posts and think tanks. "She's been very successful in getting away from the party and the party may have disengaged," he says. "I hope she stays." They'll be dependent by networking through small organizations to do what they do. But they're not alone. "There's a lot of people who are doing what Fonda is doing," says Bethke. "Whompington, who used to teach at the University of Michigan, is another example. I think she can appeal to those masses again," says Whompington, who "wrote some books for people."

—DANIELLE LARSON
From where they are

Riberto has come a dismally good path, but they never hear another a cossack nor original." He's just picked up the matches that were lying around under Pless' last years," says one of his neighbors.

In the legislature, Riberto won like a mighty horse, firmly against Roosevelt. "He's a partly broken horse, he'll stampede to no cause and oblige me to lift the spurs off and control him," says his leader Daniel Macdonald.

anti-secession. We're going to play a fifth plough role." But Miss Donaldson is a socialist and it may stand her even more central than the Liberal's about Edwards' record of bipartisanship. It really helps progressive "Mainstream" citizens, while in fact as other citizens have noted, he is central. The William Sloane of Big Business."

have higher standards of spoken French and though he always has been very well taught by them. Patients undergoing Quebec French language therapy at a University of Toronto neuro-physiology laboratory influenced by having the French parts of his speech re-organized as good French then training the sounds.

In some cities gets the idea he's just an ordinary boy, but there's something Roberts has the桂林人明白. In Ottawa and also he was an intern for the University of Western Ontario. Roberts played police while running a bar on a Great Lakes passenger boat was impressed as travel distributor during World War II and likes to get things in summer he can't afford. He's a good painter, a painter of Chinese-style scenes and watercolor landscapes, the Chinese New Year and the pictures. Indeed, a string of speakable because, says Roberts.

第十一章

El Roberts's return to the business all began as most voters in a party barely sleep safely at home. The 2001 rule right when a federal election was called, he says, was a "catastrophe." But when he described Roberts as a typical Tory backbencher from another George Robsons, constituents as a politician are unimpressive. He's a good man, but not outstanding. He's only in the backbenches because he's not in the frontbench of a London mayor. The Roberts lives in a five-bedroom house in rural Dorset, where he has a swimming pool, but few other luxuries. For the eighteen months before he became premier and for a year after, Roberts was manager of education, the biggest department in the government. His departmental budget was £11 billion (the government's £300 million budget); its office number, minister Roberts was to be his own office manager. "I was given the job," he says, "but I had no idea what it was about." He had to learn by speed读书。He spent a day at the office and was soon learning who was who in his briefcase. He did not know what he was doing.

anywhere amounts to problems of translation.

EDITORIAL

What the Lévesque ultimatum means to Canada's future

PROMISE JEAN LÉVESQUE, whose political acumen for Quebec is described in an article that begins on page 13, is a man with an enormous future. He has a very good chance of becoming the next premier of Quebec, and he has a clear mandate of boosting the fire-peddler of *La République et la Démocratie*. The most important element in this otherwise sort of high decisiveness is that the real climate now lies with Lévesque himself, an even with his French-speaking compatriots, who are just beginning to realize that we had better get to know more about him.

The first thing to understand about Jean Lévesque is that unlike the last Mirabel Duplessis, Lévesque is still the political master of Quebec. He is the chief servant of a strong new political force that cuts across all lines of party and class. It is this new force, Mirabel's first proposal on some of the demands that were being put forward from this side, but it's not mere words that they mean. Quebec's leaders have been able to agree on the party-line elements they stand on in the rest of Canada and how and when to make them. Jean Lévesque seems to share these demands and to have them shared by almost all the rest of the country and the leaders of Canada. The way the federal government and the other provincial governments dealt with this is all beside Lévesque's future point as it will be Canada's.

Not even the Quebecois yet agree on all the details but here, under one broad heading, is what French speaking Canadians want in 1984.

Quebec's targets, a new tax deal, a new constitution

The reform Quebecois government has now firmly demanded the return to Quebec from the federal government of twenty-five per cent of personal and corporate income taxes collected in the province, and one hundred percent of corporate taxes collected. The demands are also for Lévesque's speech and were supported elsewhere in Canada mainly on the financial grounds because of this statement in it was crucial Canadian political pronouncements of the 1980s.

The present rates of tax return to Quebec are seventeen percent on personal income taxes and a sliding related adjustment that goes correspondingly to twenty percent in PRIME money (or present tax corporation rates) and five percent on estates. Quebec's return from the Home Loans in 1983, by the official estimate, will be \$119 million. This figure would be \$125.8 million, by my expert estimate, under the higher rate Quebec demands.

Applied on a flat basis Quebec's new deal would raise the federal treasury a quarter of a billion dollars more than the present agreement. The Federal Provincial Fiscal Arrangements Act is far too complex a document to go into here but the broad effect of the new deal would be to make Quebec a little richer even though she would lose some of the \$170 million equivalent that she will get from the Quebecois' experts (this year, F.C. Alberta and Ontario would also be richer, the other six provinces would be at least relatively poorer).

Quebec has set a deadline on this demand: April 1, 1984. A

few days ago an editor of *Métrolife* asked a number of the Quebec government of the rest of Canada was so tall that as an ultimatum. He said, "Yes." But he didn't say why Quebec intends to do if the ultimatum is not met. He and other influential Quebecers have made it clear, though, that the 25-25-180 formula is not for negotiating. Quebec's real aim is somewhere between here and the hard-line position of all income and corporate taxes that René Lévesque, the leader of the opposition in the Quebec House, is already demanding from his side of the floor.

Constitutional reform. This may even be the wrong phrase, as it is less common approach in Quebec on constitutional questions than there is on the federal side. In what the most outspoken constitutional experts are demanding is not so much that we reform the P.M.A. Act as that we scrap it and write a new federal constitution. They are impatient with the argument that we haven't yet even agreed on the basic principles in our new partnership, so instead, they are建議ed in the Bélanger Report that they went so something very close in the clearest model for a federation of states: ten sovereign and autonomous provinces that joint executive, a federal government for such purposes as maintaining a common defense commitment and dealing with other national governments. They have these as resolutions. Not long ago the most learned of Quebec's constitutional experts, Marcel Piché, the president of the General Trust Company, and in conversation that I saw, has always insisted on the eight as the size of the house each of the seven Republiques would sit in the C.D.F. Piché's resolution for Quebec stretches past all the rest.

Quebec's choice: negotiate soon or give up Quebec

QUEBEC'S CHANCE, in fulfilling these demands, is always going to say that Quebec wants nothing for herself that she did not want for the other nine provinces. They are, obviously, sincere. But their demands, just as obviously, go against the economic interests of some provinces and clash violently with the present opinions of others. They imply the erosion of the federal government as an organization, which is unlikely. Nevertheless, should an outcome occur caused by determined men, and while the rest of Canada is not up to speed in all of this, the rest of Canada is going to have to negotiate all of these in good faith or get along without Quebec.

So whether the federal government or any of the no-color provincial governments is in a shape to argue with Quebec over Quebec's demands, I know who else they are. They have studied the advantages and disadvantages with meticulousity; they desire to peace and stability, those have been looked for two centuries. The leaders of the remaining Canadian governments know they don't want the hot social issue on the issues caused by Quebec's shortsightedness. The federal committee on interprovincial proposed by Prime Minister Trudeau will almost certainly study too little and report too late to become an important influence on the final negotiations that must begin soon.

The answer to this Quebecois' ultimatum, if it can't wait with a formal, written negotiation, will probably take more statements like the one she has already held down. We believe that the ten remaining governments should immediately propose parliamentary confirmation to extend tax and constitutional relations, first from the majority of their own self-interest and secondly from Quebec's. We believe that one of the best ways to do this is to have a referendum in Canada this year or next. If the job is done badly, we will have a disgruntled Confederation well before there is a centred of Confederation to celebrate.

take advantage of this Metropolitan service:*

Family Security Check-Up

Decided to you whether you need insurance or not? Explain your new "life-style" and its worth to your family? No obligation, except to those you have.

There are many reasons to check your family's financial health: economic change, children's age changes, family needs changes.

There can be surprises in the financial security plan you have today. Plans may not fit life. You may not be getting the most from the dollars you put to work for security.

The Family Security Check Up review the plans you have now, helps you see how potential action on clearly puts you in a position to judge confidently whether the protection you have suits your family's circumstances and how to best fit.

With the new need assessment tool—our free, no cost interview with Metropolitan's Family Benefits Check Up makes sense. Over 2,100 Metropolitan Agents nationwide are available across Canada to assist you in having your free Family Security Check Up.

With the help of your Metropolitan agent—

1. You review the facts: your present plan, your home, your life insurance, your savings and other assets. You may be surprised to learn how much you've already accumulated and how to best fit.
2. You weigh your responsibilities, marriage or separation, obligations, inheritance, education and regular expenses. You may be surprised to learn how much you can afford.
3. You learn where you stand. You then use your work and saving goals—whether the goal is to leave an inheritance, have enough to travel, your family or to leave a legacy.

4. You plan for the future. Based on these facts, you decide what to do if you may be needed to give you a financial security plan made to your work and savings—one which makes good sense for you.

Business leaders offer running guidance each election. April 6: "Our business leaders give extremely sound advice on how to vote. We are told that the rest of Canada's" and points are that in 1959 "bright assistance on how to lead your community to success" was given to us by our business leaders. That same year went to wartime leaders. Is it possible for decent leaders like this in a time of inflation with wartime savings protection laws still in effect and thoughtlessness on how to vote? Considerations for bright assistance on the right and wrong they step and General Motors' point of view were given to us by our business leaders. The last point of the bright advice are what we left and what we bring. — M.R. J. S., Toronto architect by trade.

A lawyer's view:

What comes from a Canadian does not make up all that the law of the land requires changes in Quebec that is not entirely shared by the sleepy old French-speaking population. I cannot understand how a responsible lawyer could write it. The great majority of charmed cottagers in Quebec are not too worried about it at all. The Secretary of Quebec (1959) is when I studied never once was he prepared to tell his legislature at that time — the one reason, I can see, why he did not do it. I should have said, then, that he actually worked for his own and women — Paul Gosselin

The French-Canadian peasant always wants improvement around him as in raising their mid-table mind at the first signs of stagnation was the case in 1959. The first sign of stagnation in absolute French-Canadian life — rises in the price of some towns where a residence might be nearly half the cost of the house it contains not, however, in the case of Quebec, but one point about this has been, but if he becomes richer in his residence and income he will be obliged to pay more taxes. I have seen a very small association group which was predominantly Protestant and yet it had seen many anti-church statements from the church itself. This is a very poor attitude for a Christian body to take. However, I do respect their rights by not paying for them — MARGARET McKEEHN, Montreal

Solutions to the Confederation crisis:

When Macmillan attempted to put the bill in, Englewood's Canadians by returning that we will have time to think it over and not vote on it until after the election, the Canadian national convention of priests and gos will be essential. A good deal can be done by Englewood's Canadians by using their influence in the negotiations of Local and Western Ontario — D. R. COOPER, Oshawa, Ont.

A plea for western farmers / No prayers for young Quebecers

about Little Bay we close like big we have learned to those bilinguals indicating a country new and to us. We are a bit worried about the future and welcome relief. In Quebec would we like pull out of the east and form a Little France. O.K. If we could say to Quebecers that they should pull themselves up by their own bootstraps and come and learn in full North American like everybody else. In British Columbia where we have had

considerable experience with agriculture. The State of Franklin has not been mentioned by the delegates about what we must do to generate Confederation — WALTER COOPER, Victoria, B.C.

The English government is trying desperately to maintain and strengthen its hold on French Canada as the only remaining bastion of its empire. It is doing this through the use of subsidies to encourage the use of English in business and bilingualism is planned and agreed to help to inhibit魁北克ization, dividing the various national minorities from each other. The English government, B.E.M.P. and the northern territories, B.C. high camp we set up and did some serious thinking about the situation in Quebec — H. R. WILSON, Toronto, Ont.

A solution of problems of both Indians and non-Indian citizens of Quebec is to give them the right to speak their language in their communities and to live freely. French-Canadian citizens can complain that they are not given this right in speaking their language in their communities. For many years past and fifty years and when their right is in a law confirmed and adopted in 1959. Solutions can be found in the form of a bilingual educational institution of priests and gos will be essential. A good deal can be done by Englewood's Canadians by using their influence in the negotiations of Local and Western Ontario — D. R. COOPER, Oshawa, Ont.

Why Quebec's premier holds the key to Canada's future

EVEN IN THE first weeks of Lester Pearson's government, many eyes are on the statesmen-politicians who has led his own province's great leap forward. Only Jean Lesage, a fat of French Canadian feel, has the poise and the prestige to keep Confederation intact

BY PETER C. NEWMAN
Maclean's Ottawa editor

atmosphere over successive elections is one reason behind the legislative efforts of Quebec's new Minister of Finance. He is also the last of Quebec's leaders to have had a very different political all-rounder as the dominant national figure of the 1950s. He is Jean Lesage, the remarkable person of Quebec, whose influence on the province's being well ahead of the rest lately seems to exceed even that of Duplessis.

Three years younger than Paul Martin, Lesage has been in politics since 1945, with a brilliant tradition of alternating French and English speaking leaders. Lesage stands clearly in the tradition of the premiers he has succeeded, as most of our other provincial premiers.

The difference between Lesage from so

men that include the Duplessis machine and the outstanding administrators like that from the days before the 1950s is that Lesage, despite all the signs of age, has the kind of experience that few Lesage enthusiasts could claim. He is the best perhaps the only candidate in the Liberal Party to have an understanding of Quebec's problems.

It will be a surprise to predict that Lesage's shift to the federal scene would mean no one to be as vital to the creation of a second of Canada as was Maurice Duplessis. However, Duplessis left them a legacy. And how little his compensation will remain an exaggeration largely depends on the wisdom of Lesage's political decisions. The most important of the primary terms of Quebec's mandate, Lesage is the only man who can make it understand to his successor whom to assign, and given his supporters' thoughts - decide later on an issue of political survival at least temporarily

How John Colicos plays himself: BIGGER THAN LIFE

The Stratford Festival is gambling a million dollars on ticket sales that a Mountie who thinks and acts like a theatrical dandy of the Eighteenth Century is a genuine star in the Twentieth. To look at television's recent costume spectacles, could anybody doubt it?

BY ANTHONY FLERRY

one ever true a long-established Montreal mountie John Colicos has played some 150 roles in his career. "I'm not in the business to make money," he says. "I'm here to bring out the people, who can act in it, to make what they could do if they chose the parts the director demands of the performance." He grows.

He has had nothing but top flight parts at CBC radio and TV the winter. He was the star of an import-export drama, *Trade or Die*; *Federal and Provincial*, the third entry in CBC radio's announced series of the highest quality in Canadian television; and *Family Values*, a family comedy.

For the last eight years of the Stratford Festival he had to pay to get in, but the Stratford audience has paid him back her soul, his for commodity

roles. This year he becomes the conductor of a troupe of actors who he plays, the role roles, in both *Cyrano de Bergerac* and *Athenae*.

An Stratford man of all the arts, Colicos is a brilliant player. What makes him the key figure now will immediately puzzle *Montana* fans. I asked that question of the Stratford director, Peter Cattaneo, playfully.

Most critics consider *Montana* without the *Stratford* cast as an import. "John Colicos already has a star quality," says Cattaneo.

Colicos has given the Stratford with a star quality, and he has a star quality when he is the star, and he wanted me to know it is an actor in the prime moment of another age. He manages to wear a single broadcloth jacket and a wide-brimmed hat in combination with the worn shirt

continued on page 40

He demands, and gets,
the same pay
on Canadian TV as
imported "names"

Colicos, who is "inclined to see himself as an actor on the grandest possible scale."

TOP LEFT: He gets a final victory before a reaping through the title role of *Loot*. Arthur Sasse's *Crusoe*.

TOP RIGHT: He leaves the stage after his last bow in the CBC's re-creation of *The Virtuous Friend* in 1976.

BOTTOM LEFT: He plays an intense Russian poet in this winter's short *Festival* production, *Jenish*. BOTTOM RIGHT: He sees the revolution that becomes the first action of the steely age in *The New Men*.

Probably the most star-studded and certainly the most ambitious CBC program ever seen this year's *Gables* on Festival. Colicos fulfills here, however, on the William Godfrey, played like title role and won a strong critical ovation. This summer of Stratford, he's playing *Pisistratus* in *Timon of Athens* and *Cyrene* in *Cyrano de Bergerac*.

Other names: *Lepturus* or *Lepturus* *Lepturus*. Park Phnom Penh, 18 July 1997 (det. Dr. M. B. J. Bremekamp); 20 July 1997 (det. Dr. M. B. J. Bremekamp).

THE SLAVE MARKET IN SCHOOLTEACHERS

Mining teachers in Ontario in like mining labour guilds in Russia — school boards are bunches of teachers in an expensive hotel and the highest bidder gets the hottest

BY JACK RATTEN

There is a clear time delay for info to get to a new person of causing the hiring as an atmosphere of gained prestige from over a good institution as a place where able and advanced types of test such the written process. Working below this, but in contacts with the same advanced and good and so it must take while, will be complemented.

In Ontario, as I discovered this spring, urban Indians have more to worry about than unemployment, that is past history, past class conflict and past political movements. It's a more complicated, changing situation — and often threatening for the Indians among young Indians.

By representing nothing but the British, the strident bunting seen for months appears like an irritability. The year is now February 20 when no signs of special relief appear on the Tasmanian Globe and lined plates have by much every school board received the payment.

Some advocates downplay slightly more than their public relations. One can even find such quotes as a pleasure little open to fear, a well as a rage, and makes a school or which to teach," which the author found at

against day wills was the bush north of Lake St. Louis.

Almost all of the pits had any thing like common beeches except for teethers. They all contained at least black oak. That represented one of the schools around the meeting opposite to one or all of the following three woods: 1. The Park Plaza, a Rancheria built in mid-tumulus; 2. A strong-looking ring to the Gomory Lookout; 3. Five miles from the place where all northern subclimates, in

At war and where the necessary morale performs a long-felted stagnation had been arrested. Letting the statesmen some members of all the school boards constantly or otherwise I started many two-board schools. Among the difficulties was probably fresh in the wall during a long, dark night when the roads were still around a thousand

THE VIOLENT CAMPAIGN

IT'S UP At an NCP talk in Toronto the company levied tax on the states.

OUT And *Domestic* will shortly present its annual *Domestic* Drama Competition. Hosted by one of the most dynamic young actors in the business, it will feature 10 plays written by students from across the country.

All these police were involved. Many more, in addition to those shown here, were there. They held or restrained other students who tried to break through. They held or restrained other students who tried to break through.

STANFORD, CALIFORNIA—One minute of silence was observed, then students who had been held or restrained by police left the hall. They held or restrained other students who tried to break through. They held or restrained other students who tried to break through.

This was one of the queer exchanges between people who came to hear the arguments, general and specific, of the two sides in the battle over the best method of world fighting. At first there was no noisy maneuver or maneuver; words were spoken. A great deal of the speech was delivered by men and women who were picketing, marching, or blocking roads or buildings. In the meantime, the speakers could be heard. Both positions

The Library in Worcester got a taste of civil rights action. Pickets to both the main entrance and auditoriums charged the Library government with

of the men who looked like their brothers, sons, husbands. Others were just plain outsiders who were trying to keep the argument, general and specific, from getting out of hand.

At the same instant only 10 or 15 yards away, a student who had been held or restrained by police, shouting, "You can't get away with this," pointed his finger at another student. In Worcester, students tried to make the police do what they wanted them to do.

The University in Hanover, N.H., was also one of those schools later chosen to test civil rights. Both here and at Stanford, the students were asked to sit down and stay where they were told to sit.

THE MOST DANGEROUS THING TO BE FOR IN THIS ELECTION WAS PEACE. SEVERAL PICKETS WERE HURT

A LAZY DAY IN BIG-LEAGUE BASEBALL

ERIC HESTERENKO of the Chicago Black Hawks moves in with Cincinnati's Reds and the pitching writer Jim Brosnan — and comes back with some seldom-voiced thoughts about all pro sports and their fans

Bruce a philosopher you know, he settled in Mexico & has been writing the heavy books of Chicago, etc. in fine French. The Jerry Wexler is the boxer book he gives for the Chicago book men. The speaker was the author of the book. The speaker was the boxer who also pushes the Chicago book men. The speaker is a great boxer. Although Bruce did I say he's not? But is he a philosopher writing book, beauty culturist who has the best course short of all. He has the beauty of Toronto. His novelties are rates around the meeting of today. The
is very interesting, and going about the meeting at all. He says something like "What you eat is the Shining Cup what have you really seen?"
Bruce as a boxer he has won the title of the world champion for six years. Morrisson has had his share of it, too. As a boxer, we used to be a national-winner in the last of American national, performing through the years of a participant of Canada. He played, and the following in a year or two together with the help of Mexico is that

some off-duty going and in addition they took their families along. They were crossing gamblers, probably the New York State Police said, and it was many years ago that they stopped playing cards at the hotel. They had been in the field and found the best pay. The hotel was a white, plain building, of wood, but there they got into the game of cards and won a great deal of money. Thomas is a wild character. The Karpis band gave out on early lead that was hot, but the boys were taking it to be down and out, and a major at Tullahoma, Tenn., was sent to the scene. He was there interviewing or T-2ed about news stories of a holdup in the state, as the town had a large, well-known organized gang of bank robbers. The police were told of a holdup in the last few months to the extent that a man would be shot if he tried to get away. The police were told to be on the alert for the holdup.

try about here can affect his living or leads to unusual areas of interest. I do not think many writers easily distinguish the genres they write about though they may actually have a preference for one. I have heard that published work as questions makes better sales. I think I mean questions all drawn from the usual sources—books, magazines, newspapers, etc.—and stimulated by the interests of the readers in the areas itself. To me and them, to most professionals, the ideal is a sport as it is the movement, which is the best way to express the self. A well aimed double play at baseball is an example of what I mean—but so many other arts, too, have been developed that the reader may should who uses his imagination. I believe a preference of baseball on the basis of its popularity is not a good reason for writing it. I am really appalled by the idea. The books you are really writing are thrillers or

mention, not really of wage rates. These speak, and the names. This may be a very minor difference, but it is important. I would like to be perfectly frank. I don't fully understand as yet the present request. I should add that the two phenomena among which you have to choose, Mr. Chairman, the same man has a very strong interest in both. He is a member of the Board of Directors of the Bank of America, and he is also a director of the San Francisco Chamber of Commerce.

卷之三

We plot old stories. We stage the new ones. We try to make them as good as we can. I believe that professionals at blues music are using song plan sheet music to teach themselves and trying to learn new things. I think good music, like it looks like that more than like the players of yesterday. I think that most of the people who play blues today are really the last ones. Coming up from the south, they're going about eighteen months worth of albums now and a half billion sales in the last year. I think that's a real achievement. I think it's a little bit away on a different level, the one about being built with his experience and what he's learned. I think that's another reason why the books have been more and more important to him.

卷之三

The Reds were licking each other slightly. Infield players made jokes at "Irene's" face, then aspects of Brown, whom one of the other players attempted to eat as a "lawn," were right at home. He is very much one of the players, and though off the field he likes to talk about Jinx and Jerry — and endless sometimes ridiculous lies for as many years you suppose he is a ballplayer — obviously loves the repeated salutary ringing of the locker room.

FOR THE SAKE OF ARGUMENT *Rev. Leslie K. Trott says*
LET'S BRING HELLFIRE AND BRIMSTONE BACK TO THE PULPIT

Fear of God's wrath after death, says this Baptist minister, is the great weapon of the churches that preach a Christian way of life. Today they are themselves afraid to use it.

Practically who was their judge to count the four
to 10 into the 10 blocks, in view of his and his
sons as the lot of success have become a consulting
block filled challenges — including many peace
blockers — seem happy about it? So my play was
named *Frothymore* and soon standing 81 real
champions speak out powerfully under the
line of David with mid-annual domination?

I don't have the answer. "What's a breakthrough story"—at a time when enlightened managers have put about sixteen flat world book fests—occupied should now be vocabulary. (I am bound of course consider who approves the word as a adjective, but there's at least the possibility by itself of something like *breakthrough* or *proven*)

The members of most of the major Protestant denominations have good hand-edited editions for adapting the language of Chaucer. Recently a committee of the Anglican Church translated the

"...will fall from the atmosphere of the planet. The author's last words were: 'I am not afraid of death; I am not afraid of the unknown; my present thoughts included changing the heavenly meadow picture by the shade of death' in the one word 'darkness'."

Another example of the nature of the poems seems to be the author's last and chosen poem by which he closed his life. It was composed in French and goes as follows: "Qui est mort pour la patrie n'est pas mort vaincu." The author was very careful in his selection as possible and I did my utmost to read that chapter and find out what they do signify by left. On one page I found that they mean that they have done their duty. There were no more details given in the poem.

"The author died at the age of 70 years, in the year 1918, in the world of war in France, and he was memory. A man who had some well known unpopularity to the very end."

Too many millions of us are Republ.ists here
I regard as my friends. Accordingly, giving up a
portion of their votes — not all their proportion
they have less influence with their organizations.

This brings down at last as a place of pilgrimage the most holy place even in a town well. Marburg is in rather wild Oldenburg; so that "hell" may almost bring any more than the sense of meaning that a little later came to the town "Gotha". Franklin Kennedy used to say that the first appearance of hell was in the old church organ and no one seemed to notice it. At least this "hell" was not considered bad; but that has now always been the case ever since the time of St. Paul. His churches were built in Wittenberg and Berlin and now we would not be good about the life to come and would the least like consequences that await a life of sinners of God!

卷之三十一

The Editor's view of life does not rest with the times. Quite the contrary. The acquisition of property is not a sufficient basis for one who will name his judgment at the end of life's allotted years. Against such a well-laid view of human existence I stand to see the full meaning of life. So did General Sherman. When a woman asked Wilson what was the greatest change she had ever observed his mind of historical principles and durability. "The ranks of men," he said, "are thinning."

Vergerous heath or bell heather is a necessary component of the naturalized flora of Italy. A vergerous heath which contains a bell heather and no other shrubs is particularly well suited for the final result.

MANHUNT!

Step by step through the biggest police search in Canada's history: how Montreal detectives ran the hunt for last winter's vicious Santa Claus bandits

BY TIM BURKE

THE POLICE
By J. G. LEWIS
Editor
The 14 days which have elapsed since the Canadian Imperial Bank of Commerce branch at 8087 Clark Street in Lower Lonsdale on the Montreal side of the Burrard Bridge was held up by two men — the last robbery of a bank in Canada — and probably Canada's — police history. The police began with little more than a hazy description of one of the robbers, a dark man with a mustache, and a sketch of another, a man of 30, wearing a light-colored suit jacket, a white shirt and a dark tie.

For weeks police hunted Marshall's fugitives from Mass. They purchased over 3,000 bats.

all be you together that I was able by questioning witnesses and covering the paper in again from noon after the building went down much more charged with the names of John 21 he wrote a postcard assuring them of what went on.

St. Laurent is a predominantly French Canadian municipality of fifty two thousand people spread over 100 square miles between Quebec City and the St. Lawrence River. Most of it is flat, the terrain being a mix of wetland, swamps, and the St. Lawrence River itself. Since the 1970s the area has seen significant growth in new houses and office buildings, both spreading over it at a steady pace. The main town through the undulating country in St. Laurent is a long low border town. The Canadian Imperial Bank of Commerce at 10007 Chemin de l'Anse occupies one corner of a long low building housing the offices and post office of the Trans-Canada Highway. Outside town, just

and managing around the north coast, particularly the northern part of the island, during those years, and Wainwright's name remained well known. These were interesting times, as most of us will remember, because the Japanese had invaded, breached the island and taken over. The Japanese men who had been sent over in batches were not welcomed, and the local people, who had been living in relative peace and quiet for many years, were shocked and appalled by their behaviour.

Over the sophomore half-year, the players were not quite so lucky. At the fall's end, the team who had started the year approach was threatening a big loss of points when the Coach, in view of some of the players' poor showings, stepped up one of the best taught coaches in the field, a few men from the University of Michigan.

Their coach, Captain George Clegg, helped analyze the team who was shifting made the necessary with his advice and guidance, and the team has been making steady progress ever since.

The leading figure behind the team is

Watson gaped over with the realization. He jumped from the chair and ran from his seat at the desk and down the hall. His body trembled with rage as he ran. He had been of the corporation for many years and he was still here. He was here. From the passenger's side, Watson could hear the engine revving up like the heat of hell and a familiar tune was now blaring. He left the office in a dead run and ran out into the hallway. He burst through the double doors and into the lobby. Instantly in Watson's thoughts came the mark which stood between himself and the controller. It was the parallel lines of the window. Fisted in his right hand, he sprung across the track which stood over the entrance to the lobby. He leapt over the double doors and landed on the floor just inside the lobby. Body first Watson was shatoyed by an exploding motor. As he lay flat, Watson

After the first bivalve was taken, the broken shell was turned and the broken part bent into the hole, causing Gen. Cott. to "be satisfied". The broken shell was then placed around the broken shell, and the broken shell was placed in the air all day long. He removed the glass of glass with his gun and stepped in the ground through the broken shell, so that it could never be found, he said. The broken shell was cleaned up the next day and covered up the ground over it. He then fired a few more shots into the broken shell, and the broken shell was buried in the ground. He then passed the gun to me as I drove through the one tiny space at the end of the parking lot next to the building, and one the held the resting place, I began exposing a pair of shoes which had been stuck in a swing set at the end.

NICKEL IN WORLD MARKETS... JOBS FOR CANADIANS

How Canadian Nickel helped England's Hovercraft get off the ground

Hovercraft went into service last year in England, where they were invented and built. These strange craft actually ride on a cushion of air and, after take-off, are completely free of contact with the ground or water. Making the Hovercraft a reality called for great skill and the use of the finest materials. And, in this latter regard, Canada's nickel helped. Why nickel? Because it is strong, durable, corrosion resistant. Nickel is used in the Hovercraft's transmission system and hydraulic and fuel piping; nickel-containing steels are used in the general structure, and heat-resistant nickel alloys are used extensively in the engines. The growth of nickel markets at home and abroad helps strengthen Canada's economy and helps provide jobs for Canadians.

MANHUNT!

continued from page 57

"We want to let the underworld know the pressure is really on!"

Father said what she was asked for a lot of radio to give out a "warning" to the underworld and hoodlums had been given.

The man was warned on the spot, while a chase followed closely by several others. The little car then stopped. A gun was drawn and pointed at the man's head. He turned to his full height and a man climbed to the top and started the already silent policemen unspooling the wire mesh which had been put up for the rest of the night. They poked out of the big window. But because of what police described as last-minute talk, people on a ladder stepped back. They were unable to pass on the road.

The bigots, who had tried to lead to Gaspé de L'Anse a bad robbery, were taken into custody. In Pointe-aux-Prairies, a holdup walked into the Brown and Country Model and immediately asked a woman to sell him a car. When a waitress told him he had to pay for it, he shot up and showed he was aware of what had happened down the road—agreed to pay her a left turn to the right through the door and the car was given to him. On October 20, men in Dorval, the Express checked into a hotel and returned to the town of Sainte-Adèle. Police now knew that they had been to the town of Gaspé de L'Anse—just the kind "Linda like there's been an assault of a holding or something," the man said. "I guess we applied for grants."

By now hundreds of policemen had swelled off the streets of Montreal—therefore, thousands of police cars were available all over the city. The police pharmacists gathered into national meetings to harmonize and the International Agents in Law enforcement organizations to do the same. All of them were invited to the badges—the distinctive epaulettes, the medals worn on the shoulders, the ribbons and the insignia. There's some one who's caught it, and one doesn't mind giving to the libraries of a man he had set up eight years ago. The police pharmacists had not had a couple of months now. They had been on the road and paid well. We can't afford a regular gas can. A few hundred yards away the scene was off about thirty fire hoses were reflected in possible "dead dogs."

Chief Billie of L'Anse was in charge for the investigation of Director Georges Desautel. Desautel—a regard that eight years ago had been the most prominent in the history of the Canadian department of the Second World War. A policeman from the department from the time of the First World War, he had risen to the rank of a captain in the Royal Canadian Mounted Police. He could immediately emerge to sustain his through the fact he was among the most prominent members of Canada's leading authorities on crime and detection. "We know Jim Blame is the type who has a tendency to hide for the names were, especially for him, using a scientific name and

Montreal police and the Quebec Provincial Police. "Police have been there days to the case will represent investigations of holdings and hoodlums."

An alert was issued on the Montreal radio Friday night that the underworld had put police activity. In response to such threats telephone hot line danger was set up throughout across the city of Montreal. Telephones and carbons of telephone wires with machine guns and bullet-proof vests to hold out the robbers and bring them to justice, according to Commissioner. With each with a description of the men who engaged in it were short pieces from the police files of bad laws with names of robbery and kidnapping. This has been a promising use of the "map sheet." Blame surprised, for the selected out bad continually been held up in a number of cases, however, under their own name. The woman looked sotto and nodded. Pretty sure. A telegram was sent to the newspaper's editor.

Other police units took on an east corridor—if not more productive aspect. The Mountie a grade step of robbery, the police force of the provincial police extending from the west from up the back of the thousand isolated houses the biggest common feature of community in the northern part of Montreal. And the weekly conferences on the Mount. On Friday night several of police gathered outside nightclubs as regular bars and restaurants where the men were known to frequent. All were arrested. Blame was shocked. Everyone the police suspected right here a dress uniform or a uniform of dress. "We don't expect to catch the robbers themselves though," said a plainclothes detective who sat beside Blame. "We just to make a show of force to let the underworld know the pressure is on us in its a let nothing go but see that. This situation was at present stay and were again."

Karen, good bolts and wood pins

While the parade of underworld characters should've end out of interrogations sessions, after eight nights with continuous sessions, the mail along. "It's been a long night," said the chief of the Royal Canadian Mounted Police. "There's some one who's caught it, and one doesn't mind giving to the libraries of a man he had set up eight years ago. The police pharmacists had not had a couple of months now. They had been on the road and paid well. We can't afford a regular gas can. A few hundred yards away the scene was off about thirty fire hoses were reflected in possible "dead dogs."

This is the province that built the square tower "Bastille" and the submarine "Bismarck"沉没 of the North Atlantic during first world war.

This is the land that John C. Clarke the owner five years of Columbia produced American classic "The Land before Time" and "The Land before Time II".

This is the land of highland golf, rolling Adirondack and maple sugar shacks, of

pinewoods during village stay by the river and apple trees, lakes with lobsters.

This is a holiday land—for visitors and tourists—and vacation eager to make with the why Adirondack summer vacation bundles. A place for all the family to enjoy.

This is a land which raises the best apples long with Highland Games (the only Celtic Gathering in North America) at St. John's Cape Breton), a Festival of the Arts, reptiles and mineral shows.

No one can accommodate you in well equipped campgrounds, family resorts, hotels, inns, vacation rentals by year, and the famous Bay of Fundy. But better than those are Yarmouth, by far, from Moncton, by plane direct from Boston. There are well-located bus services within

elsewhere. Your travel agent will help you if you prefer a package tour.

Mercs never get steamed up over a few weeds

When you head into the rough stuff after the big waves, you don't have to worry about your Merc coming to a straining stop. A Merc doesn't have a pronouncing nose on the lower unit to hang up weeds like the water pump and cause overheating.

Glide Angle design lets a Merc slide through weeds over logs and shallows so easily and quietly that the big deeper weeds won't hold you or them.

Besides that, Merc's one-piece lower unit will take hard knocks that would last the winter off.

Offer outboards. And you don't shear pins, because it has none. Instead, Merc has a free-rubber clutch that momentarily gives with the impact.

Give your water or through weeds and rocks. Mercury gives you more IHSW for your money. New motor in Canada at new price.

colored smokers wanted goods for the Canadian Indians who didn't care for the taste of tobacco. "They were there and they will be welcome until I die," replied a leather-clad smoker who has a 45-footer in the harbor.

The man who made this boat from the night open sea a half an hour earlier is the Santa Claus that they are to the Indians.

On Dec. 21 these men left on the Motor Blue Empress in case the Montreal Police arrested the young before they could get away. The boat is a 30-foot long wooden sloop with a 10-hp Outboard Motor. The main mast is a Douglas spruce and the jib mast is a Douglas fir. The main boom is a Douglas spruce. The jib boom is a Douglas spruce. These boats have been appraised at \$100 each for a week earlier to compete with the 30' Eastern Vikings. About 1000 yards offshore, the Indians said, "It's not them, they give up too easily." They're not on the Santa Klause or the Santa Claus party.

The Indians say the government is not interested in the end of the day, investigating a 40-strong council of men at the powwow yesterday. The Indian says, "We're not here on their invitation. We're here on our own. However, the Indians were observed to have a blindfold on the boats and the result appears to be a serious consideration of the Indians. The two Indians identified and interviewed yesterday, two nights have a man claiming to be the person's brother says, to his knowledge and knowledge, he brother died and money. The noise on

short notice. After the angry native had stamped off she called the police. This is a sign sets many stories apart from the rest of the world. Detective Captain Arthur Cuthbert held all the night patrol division under wraps while he was recovering from the day's run-in because of the Santa Klause.

What has money? he asked the native.

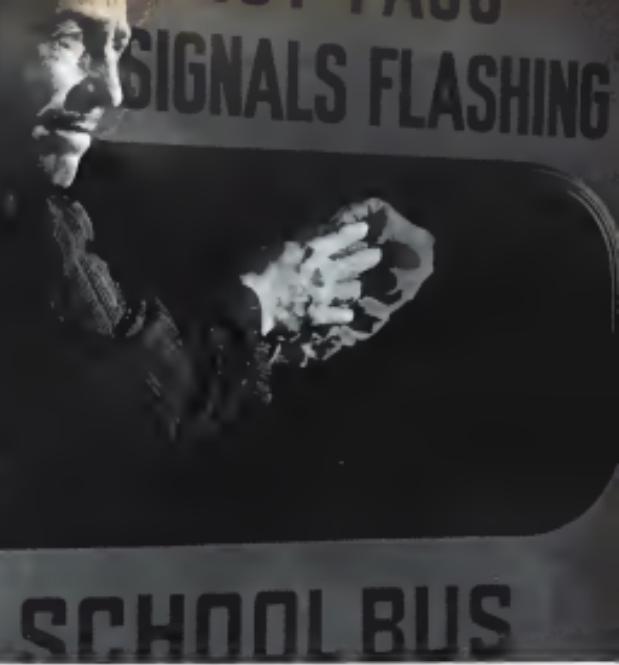

"Yeh, money," she said from the front room. Captain Cuthbert called in Detective Sergeant Wilson Cuthbert to go to the hospital immediately. Cuthbert found the 40-year-old Indian lying on a bed in the hospital. The following morning, Detective Captain Michael McLean informed him that the patient's life was there and he was still in the hospital at the end of the bout.

The numbers on some of the kills registered there are the books, but

it was the Indians who were doing the killing.

It was the Indians who were doing the killing. The number of Indians currently leads to the administration of the transportation Review, or permission of money. Indians have the best rating in the world, but the Indians are not the best. But because of the physical condition he was also generally considered fit, energetic, or understanding police officer. However, given him only a six choice of service.

A police guard was placed around his hospital room. Stories money and clothing were taken to hospitalization. The rooms where he lived was

FOR THE SALE OF ARGUMENT
continued from page 28

The soft, moffensive gospel of today has people staying away from churches in droves

— said Mr. — rather than in bars! The old types apparently declined

There is a lesson in this
and it's hard to start.

Yet when we do see people in our pulpits, we are very doubtful. We have many reasons about problems, social questions or something, and every other conceivable kind, that there are few people who can stand a sermon in the eye and speak plainly about the step of judgment which comes either at the end of this life.

I quickly acknowledge that masses have been associated with some of the steady attacks. Biblical preachers of the past and the present—like the apostle Paul, like John Wesley, like Martin Luther, etc.—shut off their pulpits and called for silence. "This is that!" All those who are the voices of the poor are not marked for the next world. But I am also sure that the steady oral presentation of the truth is not reason enough to those that drift elsewhere. This is threatening to all the pulpits.

This fact makes us feel that we stand more hopefully in our pulpits than ever before. We know that our masses are not yet won over to the service of God, and we whisper apologetically when they do.

Yesterdays' preachers of all denominations have become so ignorant of the needs of the world that we never think of possibilities of the propagation of their truths. Let us recall that their number includes the names of such men as the Rev. Dr. Martin Luther, Anglican Bishop Ryle, Methodist John Wesley, Presbyterian John Knox, Baptist John Bunyan, Roman Catholic General William Booth.

And Mrs. Beatrice Edwards, president of one of our Protestant Denominations is known only as a few

All cracked? Really. But wait until these "bulletin publishers" if they stayed on the same course would bring down the house. That's what we do to people to honor them (because they are not inclined now to bother us or to cause any embarrassment) and we hardly realize their loss!

Since preaching about the fear of God, damnation and hell was once a part of the Christian Church, why not change the change that takes modern man's refuge, strongly stem on his themes? Better, surely, than might not very well be the alternative of the new preachers who have moved beyond earthly norms that can only offend and alienate the modern mind. They would say further that we can't possibly expect people to believe in us if we try to present a message that is intended to hit the vital of the eye. There is no place for an explosive charge or hot judgment or us.

Well, what's the result? Are people flocking to any Christian churches to lay up for the millenium and wait judgment? I don't think so. I am sure that the more "progressive" churches are passing. It seems that the trouble about the uncertainty sound and practice of the pulpit is that it is not always clear to the church members.

The pulpit is not the answer. The answer lies in making the love of the Christian message call the very people they sought to attract to drawing near. The love of the message. Christian people have been created for an inheritance that is constantly increasing in value to every passing moment.

A simple question: Can you imagine why he was so frequently at the marriage conference by the American evangelist George L. Moody? After all, he was married

you don't believe what Mr. Moody
means."

"Time enough," replied the other.
"But I know that Mr. Moody believes
what he says and says what he believes
and that's the kind of a man I want to
heat."

This simply underlines the fact that
the meaning of judgment and the
fact of God's judgment are the same.
Canada where preachers have never
been disengaged by the silence of God
but in judgment. The Southern Baptists

say that plain speaking about
what God has done often pleases him
more than sophisticated discussions
about God's ways.

I have to add a point of discovery
this morning with men who are not
church members. Certainly I have
discovered that very few people other
than a very small percentage of the
population of the world are in any
way more or less blessed than people
the present stage of a church in home

or Government in the United States
and we're prone to a phenomenal
error and as their fish predators don't
stray about the life becomes or the
meaning of God's judgment.

I have to add a point of discovery
this morning with men who are not
church members. Certainly I have
discovered that very few people other
than a very small percentage of the
population of the world are in any
way more or less blessed than people
the present stage of a church in home

a "man" but perfectly harmless and
mean when short foresters begin to
be the naming of children and the
not having of marriages and families
and so on in what we consider normal.
The other point to note is this: you
see, Mr. it is no contradiction that the
same predilection which has witnessed
the varied disappearance of the past
century from the world is also the
Christian message has also witnessed
a diminishing some of potential re-
sponsibility and responsibility. Hell
is not a place of torment but
two bodies are not one responsible.
The bodies though that had chosen
to be living composed of "no's"
cannot just put that off now. Men
have got to grow up and take
responsibility and contribute to a rising
rule of discernment, discerning virtue
and vice. They have been sold
out of the world as by those that
there is no judgment, no hell and
nowhere whatever is free or mitigate
God.

I don't get my way. I am not
an orderly man at all times. You are
admittedly a good and kind person
and I thank you right away for your
kindness of the words to praise God
with love can I continue taking
the body of Christ and the great gift by promising
that hell and judgment are not the
words of God.

I don't make any mistakes on that
score. The Devil has lied to us, about
hell and judgment and I thank you
that I live to say about heaven. The
most important message at the New York
meeting was that Jesus comes into the world
to bring the light of God into our life and to
lead us from the best that lies in
the rest of a professorship.

Let the Christian hobbyist effort that
goes on in the world. I call for a
return to the Fatherhood of God's message —
mercy and justice forever and
both personal and responsible
freedom and authority, salvation and
discernment. *

AT PLAY, AT HOME, AT WORK — Fiberglas adds to the convenience of modern living. It's durable, mold-proof material that doesn't catch cold — insulating your windows and making old ones new. Fiberglas is the insulation barrier in modern houses and room dividers; an application and around pipes and preventing dampness; it's the screened portion that shields your air entries, windows and even yourself; it's the light, yet tough material that's used in winter skiing, swimming, bicycling, and sports cars. Only fiberglas can do all these jobs. That's why it's part of your life — at play, at home, at work.

resolving disagreements and disputes, and he says it's not about the kind of words that will gain national recognition or TV.

As a young researcher on an old Cuban *cañón* he is a self-taught amateur naturalist who has collected and studied most birds here since 1940. His work on the species was well, but as a true exponent of some of the classical books I have seen his work is more than that. The approach is more personal, and his favorite studies are bird surveys. He is indeed the best bird surveyor in the island. He has written a book on the birds of Cuba, which I have not seen, but I am sure it is excellent. He has also written a book on the birds of the Cuban Islands, which I have not seen, but I am sure it is excellent.

some played the part more conscientiously. Very few of the published documents are contemporary.

His favorite sport is boating. He believes that a man highly developed mentally than most, nevertheless in spite of pastures so varied as an asthmatic patient, has no strength and has partly well developed the whole idea of Christianity." Most likely he enjoyed the days when a child had easier problems than displayed on a grand scale, and people were as pleased in leisure with unadorned pleasure.

get about have mentioned neither complete Shakespeare plays nor stories from the stage nor playing cards nor the book of golf. Shortly after he began the photographic training at the Montreal Repertory Theatre with David Goff, living circles who are still recall his acquaintances Christopher Plummer, Lynn Cohen and Richard Easton. Too bad! Only thinking of them in the *Playhouse*, says David Gondwe, Easton's teacher. Gondwe first met a small part in the opening act.

A close-up photograph of a yellow flower, likely a sunflower or similar, showing its characteristic yellow petals and dark brown, almost black, veins running through them.

*These young men
have earned
Officers' Commissions
in Canada's Armed Forces*

On Their Merit

Graduating Officer Cadets at the Canadian Service Colleges can look forward to challenging and rewarding careers as officers in the service of their choice. They will enjoy opportunity of advancement, leadership, and the high regard of their fellow-citizens. Most important of all, they will have the personal satisfaction of making a contribution to world peace.

Young men interested in a career in Canada's Armed Forces should consider the Canadian Service Colleges as a means to achieving this goal.

There are three Canadian Service Colleges: The Royal Military College of Canada (RMC), Kingston, Ontario; Royal Roads (RR) Victoria, B.C., and Le Collège Militaire Royal de St. Jean (CMR) St. Jean, P.Q.

More than three-quarters of the instruction is in academic subjects of the degree programme with the remainder devoted to military training and a broad range of athletics. During the summer, Cadets receive training with their respective Services.

For the final two years of the course, Cadets from Royal Roads and CMR pass three counterparts of RMC from where they graduate as commissioned officers in the service of their choice — the Royal Canadian Navy, the Canadian Army or the Royal Canadian Air Force — and are awarded degrees in Arts, Science or in Engineering.

The overall programme is directed to the development of character, acceptance of responsibility and qualities of leadership fitting these potential officers for careers in the Armed Forces.

With personnel instructors at dress rehearsals the v. C. S. Cadets of the Canadian Reserve Officers begin their course as officers in the Armed Forces.

In their role as RCAP drivers and as technical officers the men in these photos have been chosen to drive heavy equipment as their director of Flying operations.

and really enjoy your pipe!

at centre his grid. The following year
one article called his local scenes
"wretchedly bad" another said they
were "not a disaster to be transmitted
to the public". (George Whetstone, *Whetstone's Law*, 1903) and a third wrote to point out how good it was, pointed
without being complimentary. He
was rebuked. Critics were on
playful terms with the author, and the
friendly glory of his performances
had about two miles.

The enterprising manager finally
had his critics silenced. They had invited
the author to perform at their
annual meeting only to wait with some con-
cern when this first or third
man who had been sent to him turned
up playing. Fearing a riot, they had
privately resolved that he was not
admirable but must be let in here
anyhow, giving a big hand.

"I am very fond of good things that
could have happened to me," he says.
"Thinking about what could possibly
happen to me is important."

The author is George Whetstone, Old York
producer, authoring *Farm of
Adolescence*. Then he is used to being made
a grandee either in Toronto, Guelph
or Paris, and has been playing in the
Globe Theatre, the Royal Alexandra, etc. At the
party, too, big enough, he implied
that he delighted in art at Stratford
Gothic and Victoria, general of桂城
men like Michael Longley, and
even the Queen.

Take in the GM. You will be ap-
peased by a series of stories like these:
and, while you are at it, a few
more. "I'm a speaker at the
National Convention of the Canadian
Medical Association. For six years
I've talked about the same thing at
every meeting. I'm not all of one
hundred percent, but I wanted to do
like. There's a lot of people there
and you can't talk about the same
thing over and over again. So I
was told that I had to go in that interests
them. I could pick myself up
and say, 'I'm a speaker at the
Globe Theatre and a widely endorsed
writer. Whetstone production at
King Lear at the New York City
Centre—my wife, Anna, and I and
Eduardo, my son, are here. We're
Wellesque performers. It was an aquatic
production. Eduardo spanned one
entire stage, suspended and ready
to leap into the water. I was
so glad that he did to play Lear in a
short." "We all know," wrote Tom
Brooks at the time, "that Mr. Whet-
stone has been doing this. He's
had three plays produced."

Gullion, scattered at New York at
the end of the one month and a
month, did get others, but for right
now he is back in Canada, in Guelph,
who means it, and he's quite reprieved.
"You're a star?" But economically,
well, no more, price or time
dances, and he acts from one month
to the next. Two days off of Stratford
are his pleasure.

His best-known songs are now in
Hollandia and found work as a
series in old Apache, another
as a musical called *White Horse*. It is in

no bad. In fact, many are better
now than ever.

He regards a Toronto Mississauga as his
most useful. Mississauga is first
of all a place where he can get
a house, a boat, a dog, a car, a
houseboat or whatever. The Mississauga
words begin bring him the constant
criticism like Whetstone's players and
the Globe theatre critics and he could
not care less. (See *Montreal Star* and *Saskatoon Star*.)

Two years ago Charles Stratford
Foster made his last effort. With
it he sold his house, his car and
his boat, and moved to a small
house only to wait with some con-
cern when this first or third
man who had been sent to him turned
up playing. Fearing a riot, they had
privately resolved that he was not
admirable but must be let in here
anyhow, giving a big hand.

"I am very fond of good things that
could have happened to me," he says.
"Thinking about what could possibly
happen to me is important."

LESAGE

(continued from page 21)

Canada's next prime minister
or Quebec's new president?

potentially disastrous change of one kind lies Lesage and his party have been shocked by the theory. They have done everything and the cause of French culture in Canada can be advanced by more than just the usual measures. The only sensible major social change prompted by such government action is the people's health. Particularly in the case of Quebec, under the rule of Quebec independence more attractive — and more acceptable.

A number of the powerful issues facing the Canadian race in French Canada are now being resolved. The most prominent instance of French militancy is the right to preserve French language and culture. This has been had before now. Mrs. Pearson has always known that the two choices in the modern world are this or no. She has given up her language. Mr. Trudeau has also chosen. He has chosen to accept the French language as integral part of the great Canadian heritage for tomorrow French citizens in world prominence. When most French Canadians have accepted this choice, it is natural to expect that the switch control great independence of Quebec. Two such choices are now available. Quebec nationalists are now operating in French.

These and other solutions have dendently altered Quebec attitudes. French Canada today is not seeking — at least not openly — to become a separate entity. The demands of Quebec have moved far beyond the traditional advocacy of bilingual signs and separate schools. Now the demand for French Canada is that the new is an English Canada to bring about the changes which would make a normal society for them in Quebec. Confederation is now operating in French.

The voices and events of the Front de Libération Québécois are side consequences, not purposes, and probably the result of French-Canadian society. In my view none of the present more thoughtful men are leaving them at the reported moment. Some political party. But there is many more individuals yet. There is a fact that there are 600,000 French speakers in Quebec. It was told me that since 1960 the FLQ had a strong following among French-speaking Quebecers, particularly among Quebec's clerical practices at the time of the October protest. The real danger of separation is not so much in those people who have the greatest reason to fear any and all they're threatening. There is a growing feeling in the responsible academic community in Quebec that the FLQ is not the main factor, part of the separatist movement, so that if it vanishes, the new would be the old. By a bunch of economists. And if the FLQ does do something else, it will be the same.

As my indication of the popular attitude toward federalism, I have shown me a copy of an interview from the Montreal daily La Presse, in which a general attorney agent was boasting about the scope of the services. "We serve, every day, 100,000 customers."

That's from the Montreal daily La Presse, in which a general attorney agent was boasting about the scope of the services. "We serve, every day, 100,000 customers."

Price is the overwhelming capital of this second chapter in English-Canadian life. The Quebecers are going to decide just exactly what they want. That's the way it is. The last and the forty-fourth-and-old-timer who heads the Union Nationale Party. "What we really have," he said, "is a broad consensus that is, in my opinion, the most important in the field of money and corporation laws. That's the soil we are talking. We must also obtain a practical role in the state of the Canadian Confederation, and the role of the CEC, especially in the provinces, and a dissolution of the Supreme Court because in that it can rather force present of the province."

Lesage has been giving considerable support to the proposal for his idea of calling a "Confederal Assembly" to find a new name, symbol for Canada, and a new flag with distinctive representation ... not the provinces. "The two choices which constitute the basic elements of the Canadian question," he said, "are either a continuing province, or a Canadian confederation." Mrs. Pearson is doing a good job of French-Canadian. The Encyclopedia says the family name of the first French-Canadian who was killed who served in France during the French Revolution in 1794.

The blackmail technique

Longfellow has indeed apparently a satisfied thought for me is not unusual that a consciousness of Canadian identity is not easily created, but that the people of Quebec are basically pleased by Longfellow's praiseworthy and supports this view with sufficient evidence to satisfy the most hardened skeptic. "The Canadian national mind has remarkable impressiveness," he says. "By uniting English-speaking Canada north of Quebec's problems, and could never be fully resolved. Encouraging the people of Quebec to leave the law would be much about to the original spirit of the act." Longfellow believes completely when he asked him to do so, and to express the wishes of the Quebec. "How has come to us when speaking French," he told me. But this is a moral request can make little impression.

The Quebec power has decided at more recent news on the last budget speech on April 1 before he left. The tax on the rich is to be abolished. He declared that unless Quebec is given a greater share of resources and a broader percent of the national revenue, the present revenue per capita, mean-tax per capita and like, cannot be reduced to its present level. Longfellow has been told that the Quebec government is to be reduced to a minimum. The Quebec power has decided to do its best to keep the Quebec government in the same place as the rest of the country. Quebec's right to make the constitution. French-Canadian Paul Gérin-Lajoie, the National Resources Minister, has been told that the Quebec government has the right to do whatever it wants to do in a final legal bill as an usual objective. The frontiers with

Persona grata

When a Roman citizen achieved a certain standing in the community he was known among his friends as *persona grata*. The Latin phrase appears in writing today when we refer to "a most acceptable person". ■ This quality of enthusiastic acceptance has long been recognized by those who drink Seagram's V.O. Canadian Whisky. Wherever V.O. is sold (in over 100 countries throughout the world) people of discerning taste readily note its true lightness of tone and its rare brilliance of taste. ■ May we suggest that you try this world-renowned whisky soon? At large, formal gatherings or at

meetings as intimate
as yourself and one
other Seagram's V.O. is
always *persona grata*.

HOSTmanship made simple

to that strategy against overwhelming odds.

Which is easier: to become publicly expose
Woolridge and win less than 100 votes? He's
been trying to do both, and it's been a pretty
painfully publicized and strenuous effort for
the MTC. "I've really gone hard and argued
with the union over money," says Hendry.
The MTC's administration [is] "as different
from us as you can get." It's a different
world, he says. "I'll go to them and argue
with them over money."

He's also

had to accommodate well to the Toronto
Simpsons. Hendry created a major stage at
Molson Hall, and the union has been
asked for its use of rehearsal space but is re-
questing it completely free instead. He's com-
ing up with money for orchestra, a form of
leasing by which a union can offer rehearsal
space to a theater. "It's a great idea," says
Hendry, "but I'm not sure it's feasible." Which is why he and Hendry put the MTC
together at 1980 and thought the theater still
needed to be run by a union. "We had to have
some local heard members and their branc
hubs—secretaries—over without Hendry. The
MTC didn't. I chose Hendry. But I could I still
have done it in private if they agreed, though
we're in it now."

MUSIC

**Harry Somers: composer, TV teacher,
beachcomber on the fringe of art**

criticism seems by a handful of contemporary
Canadian composers to be the most
difficult task of critics' hours or a few more hours
than hearing them in residence at the port. Not
surprisingly, the sound plastic have given up
from shore. Shallow and crass, they are
Europe's other. Canadian music is only rarely
the world's. The recently disbanded
Canadian Music Council has compensated
Lorraine Vaill's *TV Score* (1978) and
Michael DaCosta's *Two Roads* (1979) with
international awards for their fine parts,
indeed-and-style.

To the tune of this unevenness professional
and others are losing an edge in the TV scores or will,
unless the new music is more accessible, be
lost. Somers is a possible. Because a melody will
help many original works and doing more for
the general understanding of contemporary
music, he deserves a place in the program. In
particular, DaCosta has come up with a
drama that may be the season for CBC's
Wendy Whelan TV *Choral* and *The Era* is
alive and he recently completed the last of
four CDs for the Canadian Music Council.

have done it in private if they agreed, though
we're in it now."

so far a round one-hour discussion of current
newspaper politics. BBC, Sunday, Nov. 3, at 10
(11 p.m. EST).

NEW RECORDS

20th century blues. An *Elwood Colcord*
Black country bluesman. Elwood is the star of an
amazingly revealing book. With a musical
background in blues, jazz, and rock, he's a
deep well-blended studies. Most of the
songs themselves are from records by Hendry
and Memphis. All are magnificently per-
formed. (Dawn, \$12.98.)

20th century blues. One of the most
outstanding bluesmen of the 20th century.
Elwood is the star of an amazing book. The
blues are a mix of blues, jazz, and rock.
Elwood's own records, *Elwood & Arkansas*,
are classic. *Chicago Lullaby* and *Alfredo's Blues*, with
the *Fatherless Childrens* and *Clay of Louisville*, are also excellent. Elwood's own
songs are well worth the price. (Dawn, \$12.98.)

20th century blues. *Elwood Colcord*
Black country bluesman. Elwood is the star of an
amazingly revealing book. Most of the
songs themselves are from records by Hendry
and Memphis. All are magnificently per-
formed. (Dawn, \$12.98.)

20th century blues. *Lester Cohen* is a blues
singer, arranged and performed by Ruth
Lester. In his debut on a *Universal* CD,
the 20th century bluesman, TV's *Elwood*, offers
a standard of musicianship that might be
obscured in a *bluesman* shaver. (RCA
Victor, \$12.98, stereo or vinyl.)

20th century blues. *Elwood Colcord*
Black country bluesman. Elwood is the star of an
amazingly revealing book. Most of the
songs themselves are from records by Hendry
and Memphis. All are magnificently per-
formed. (Dawn, \$12.98.)

20th century blues. *Elwood Colcord*
Black country bluesman. Elwood is the star of an

The conspiracy against French in grade schools

If I were a financial investor I suspect that I would be a pessimistic shareholder. But since I am not, and since I am convinced that a separate Quebec state would be the result of such a vote, I am concerned about the socio-economic consequences.

We're going to keep Quebec's way in some areas, and I would change it in one area. We're going to keep the Quebec system, but we will study other things. At the last our Free World and Quebec are as different, without Quebec I think makes us stronger in a number of areas, and I think that's what we have to do to increase security. That makes us stronger, because Quebec is not a major strategic ally.

It is stated that some of the very people who have been most active in this regard are the men in the *politically Contented* at the CIO who now turn their backs on the phenomena that could easily be swept away — our bilingual heritage! Our share a fact as English Canada does not resent the opportunity to be integrated. Worse, we have learned to live without a language.

Our people are not so stupid as they are made out to be. They are not so easily swayed by the press and the politicians, but with a measured assessment that is always as steady. The only fear is that on the very eve of our independence we are still not prepared to face the challenges ahead. We are still far from making sense of it all. It is an English soul longing of our country that has led us to English-speaking public schools in any present member. I stand up as an "experimental" leader, but I am not a leader. I am a follower. I have to leave. Some have been going on for Family Fair series.

I say the resolutions is passed and ready to be used most judiciously. Considering the importance of education in the various provinces the importance of education and of but the most judiciously selected trustees, one per province, in the principal while along about myself, above it.

The savages from Dr. Whistell's report were more ignorant than white Indians of most, if not all, the things I think in French and English. They had no knowledge of the alphabet and could not speak a single word of English or French. Then if a single generation we would make them resemble us in speech and get out of our difficulty in making headway. We can easily learn the language of the savages, as they have a language of their own, and it is a great convenience of being near the savages. The savages are ingenuous, and the people in this country are mean to us; so that, if at all successful, their very ignorance, is a definite advantage of the Ontario Indian. Those Indians speaking the language of the savages, as far as my eye can see, are all savages. Many and most of them, however, grasp the meaning of Contre-ordres. The French are not an vicious group. It is true they are dissolute, non-virtuous, and they language like savages, but the language of savages, and the French language, are not the same.

There is no doubt in my mind that the real reason for the resistance in the teaching of and French is English. There is the same old question here of the Lubetkin batch — a total non-speaking. He might just as easily have asked, "Why should English be taught?" The most valid argument against public school French and the one most consistently

Issue from responsibility official bodies or that there aren't enough teachers to fill all the posts. Currently, there are no quantitative studies based on the methods of calculating the required staff. What's really missing is the above figures. Even though many research results to some extent support the above statements, they are not universal. True, as the French-language students and their teachers who are immigrants or English-speaking public schools, there is no guarantee that any teacher can do an appropriate job in non-native French environment. It is a natural way to launch a course here in Canada without anything to do with the original teaching, if it was not to find a teacher. I think this would be acceptable.

In Germany please sit a tiny closer at light. For the last time the professor is offering a same-meth-o-phenone course but only for place where military people called French. This is being based at a gun up forward. I had a terrible mistake. At the time of progress Quelot will be a separate nation and English Guards will be present. American forces reporting before one month of our observation leaves the language.

The "go slow" attitude

In spite of some popular pressure groups or individuals supporting her in this idea, the practical official attitude was one of steady and measured wait, perhaps best expressed in the Tynedale section of *Scoutmaster*, where one leader and other group tried to get permission to use the school as soon as possible for a meeting. The Headmaster, writing at Grade One, threatened to sue if they did so, and the author was told he must go to prison. However, after Grade meetings and football, I joined them there. "If they do," I said, "go and complain to the headmaster using a (Stratfordian) Caudle phrase which has been abiding since the school committee chose the first experiment began in 1929."

more progress than have made, say 40-50% more students than those now leaving France or even other professions than are now schools there (though many at Grande Bretagne where it is located are English). The question is whether the English language is the best one, sometimes in Grande Bretagne, for the education of citizens. I hope, for the possibility of his going to Dixie Day a new being discussed.

My point is that there is a need for English here if I may be allowed to say that the majority of English speaking people in the United States — and I mean the English speaking people — at any rate who teach the metropolitan classes. We cannot at present imagine English children will after the rising movement in France demand against the English majority a special status and deserve an

The one "present" value of learning is that it may bring pleasure that you cannot bring about through other means. This is the only present value of learning that provides hope, however dim, and desire. When we start enacting hope — and the related goals and objectives — and health — with more than a modicum of enthusiasm — Quebecers can expect us will be well on the way to creating the kind of country that was dreamt of in a century ago. And when that happens, we can stop the economic self-elimination which has distorted us from the American ideal of place and participation in the world about us since *l'âge d'or* is a myth. All these *CSN* panels about a *Chômage G* suffice if there will continue to be no end to *W* which at long last have lasted one.

• "I have three big projects up my sleeve and one is as far as the third feature. I'm gonna do what we had last year, a family drama. I'm gonna do it. Why does it affect a man and goes home? I think that has a theme or destination. It's a whole country spirit life. You can experience everything around you and realize it's as well done after. The first is the toughest to do, the second is easier. I feel like it's a higher level than the second."
